

# INCIDENT REPORT

SCOTLAND YARD, 8TH DISTRICT

INCIDENT TYPE: *Nefarious Gult Activity*  
REPORTING OFFICER: *Officer Tabatha Tellen*

DATE: *April 1st, 1886*  
TIME: *9:40 PM*

---

*I, Officer Tabatha Tellen, recall the following on the night of March 30th, 1886.*

*I was with Inspector Arlen near the 33rd Street access in the Warehouse District of East Havering. I was there to assist in dealing with the Gult should they attempt to escape in our direction.*

*Around 7:00 PM, I noticed a threat of a shadow pressing upon my mind from overhead. Overhead is the best way for me to describe the direction it was coming from. As time progressed this threat continued to increase in both scale and power. Unlike Inspector Arlen, I am attuned to such things and was placed here to assist him should the worst happen, and this Gult do something dreadful.*

*Around 9:45 PM, I felt the threat suddenly vanish from my senses and I felt as if a weight lifted from my shoulders. Sadly. This was not to last as a light filled the sky followed by the explosion. Thankfully I was already in the alley as the world suddenly blew up around me. I did not see Officer Phandler but from what the Inspector said, he did not make it and nor was he blown away. The Inspector said the poor lad was just gone.*

*The buildings we were hiding between began to shake and rock in a way that does not give one the feeling of stability. Pieces of the stone work fell striking a few of the men. We fled the alley into the street and that is when we saw the destruction. The district was in ruins and there was nothing left of the Kass Warehouse. I began to assist the men in helping the wounded. I began.*

*As I was helping one of the men who was struck in the head by falling debris. I noticed something upon a building in the distance. Something standing there. It was dark in color which could have been the shadows. I can't say for certain but I do recall that it wore something upon its head. A crown of horns or it had horns. I don't recall ever seeing a creature like this. I was kneeling when I saw it. It turned to look at me then jumped away and was gone.*

OFFICER: *Officer Tabatha Tellen*

DATE: *4-1-1886*

----- More on back as needed -----

----- Continue as needed -----

*In the flurry of activity after the explosion I had no chance to report what I saw until more help arrived and we were back in the Kessington Warehouse with the wounded. I reported it to Lieutenant Kerben who sent men to investigate. As far as I am aware, they found nothing.*
